Musculoskeletal Disorders (MSDs) Statistics:

- Average cost range per work related MSD Injury was $48,000 - $67,000 in 2009
- 365,580 reported cases in 2014
- 13 day median to recuperate from MSD injury in 2014

Introducing the next generation of innovative electric tugs from Electro Kinetic Technologies. The **Pony Express Electric Tuggers** combine a highly compact, rugged design with a variety of hitches that help you to safely move payloads up to 7500 pounds.

These units feature an innovative ergonomic controller mast design that can easily be adjusted for a wide range of user heights. With a rugged powder coated steel frame, these powerful tuggers will help you get any material handling job done **productively** and **safely**.

**ELECTRIC TUGGERS**

- **REDUCE** employee injuries from strain and fatigue
- **SAFELY** transport materials across various surfaces and inclines
- **IMPROVE** your ergonomic footprint
- **BOOST** employee morale and productivity
- **INCREASE** your bottom line profitability
