Motorized cylinder carts offer an injury-preventing ergonomic solution for delivering and transporting industrial and medical gases in the following industries:

- Healthcare
- Pharmaceuticals
- Aerospace
- Oil & Gas
- Petrochemicals
- Chemicals
- Power Generation
- Mining
- Steel
- Metals
- Environmental Protection
- Food
- Water
- Fertilizer
- Electronics

When the job calls for pushing, pulling, and turning a heavy load, an investment in a motorized cylinder cart gives you an ergonomic solution for delivering and transporting industrial and medical gases. With standard payload capacities up to 2,000 pounds, our products help you get the job done, **PRODUCTIVELY** and **SAFELY**.

**MOTORIZED CYLINDER CARTS**

**REDUCE** employee injuries from strain and fatigue

**SAFELY** transport materials across various surfaces and inclines

**IMPROVE** your ergonomic footprint

**BOOST** employee morale and productivity

**INCREASE** your bottom line profitability

**ENGINEERED FOR:**

- **SAFETY**
- **PRODUCTIVITY**
- **SIMPLICITY**

Built upon the motorized platform cart line, these units feature a steel cylinder rack with available protective coating. This plasticized layer eliminates any damage to the cylinders and reduces the noise during transportation through hospitals and labs.

Use the table below to select the medical cylinder cart solution that is best for your application.

The Pony Express Motorized 2010 Cylinder Delivery Cart safely moves a single liquid gas cylinder or up to four K-size cylinders over impediments and inclines. This manual loading ergonomic motorized cylinder trolley has large elastomer tread wheels and an ultra-quiet motorized drive system to safely and quietly maneuver cylinders in tight spaces.

**FEATURES**

- Single liquid gas cylinder or up to four K-size cylinders.
- Up to 10 miles of operation between charges
- Automatic brake to prevent rollback
- Industrial, medical & commercial use
- Regenerative dynamic braking ensures a controlled stop at any speed
- Horn & emergency stop button

**SIMPLE & ERGONOMIC**
Easy-to-use controls for motorized movement over distances and up and down ramps.

**SMALL FOOTPRINT**
Compact design makes this cart close in size to an equivalent manual cart.

**HIGHLY MANEUVERABLE**
Motor wheel linked to tiller gives this a unit a tight turning radius.

**CUSTOMS AVAILABLE**
